### **DETAILED ACTION**

1. Claims 25, 27 and 28 are pending. This action is in response to the amendment filed 5/11/2005. Applicant has amended claims 25 and 27 and canceled claims 1-24 and 29-43.

#### **Examiner's Amendment**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert M. Bain, SENNIGER POWERS, on August 2, 2005.

3. The application has been amended as follows:

Please replace claim 25 with the following:

Art Unit: 2194

Claim 25 (currently amended): In a computer system having a graphical user interface including a display and a user interface selection device, a computer-implemented method of providing and selecting assembly binds from a menu on the display, said method comprising: ~~the steps of~~

retrieving a listing of applications having at least one assembly bind history file[[,]];

~~and~~ displaying the listing on the display for user selection;

~~and further comprising the steps of~~ receiving a user selection of one of the applications[[,]];

retrieving a most recent assembly bind history file for the selected application, said most recent assembly bind history file containing information of assembly binds from a previous execution of the application having at least one assembly bind that differs from a current assembly bind for that application[[,]];

~~and~~ displaying information on the display indicating temporal information of the most recent assembly bind history file[[,]];

~~and~~ providing a user confirmation selection;

recording a predetermined set of one or more assembly binds for the application that are known to safely operate with the application; and

binding all assemblies for the application using a predetermined set of one or more assemblies that are known to safely operate with the application.
